

**Mr. K V Balasubramaniam**

**Managing Director Indian Immunologicals Ltd., Hyderabad, India.**

Mr. K V Balasubramaniam, Managing Director, Indian Immunologicals Ltd. holds a graduate degree in Mechanical Engineering from the Madras University (1979), Masters degree in Management from the Indian Institute of Management, Ahmedabad (1981) and a PG Diploma in Patents Law from Nalsar University of Law (2008).

He has over 30 years of experience in the pharmaceutical industry and management consulting. His key areas of expertise are in starting new businesses, project management and general management.

Mr. K V Balasubramaniam is involved in the vaccine industry for the last 25 years and has closely followed the development of this industry in Asia. He has been a speaker on the subject of vaccines and its commercial aspects in several international forums.

Mr. K V Balasubramaniam joined Indian Immunologicals in 1996 as Chief Executive and has been instrumental in reviving the fledgling unit of the National Dairy Development Board and making it a professionally managed and result oriented vaccine player. He was inducted into the Board as Managing Director in 1999.

Indian Immunologicals is today the No. 1 animal vaccine player, the 3rd largest animal health company and the 12th largest biotech company in India. Indian Immunologicals is also major player in the human vaccine market in India, holding the fourth position; and focusing on the pediatric segment and the rabies segment with its flagship product – Abhayrab. Indian Immunologicals has its manufacturing facilities in Hyderabad, Ooty and an upcoming manufacturing facility at Karkapatla – Hyderabad.
