

Mr. Atul Aslekar

Co-Founder, V-Lifesciences & Technology Pvt. Ltd.

Atul is a co-founder of VLife Sciences Technologies Pvt Ltd. He brings over 18 years experience in technology development in large international organizations like Fujitsu and Indian companies like Zensar. He was also associated as a strategic consultant with companies like Siemens AG and Mahindra & Mahindra Ltd.

Atul shares the vision of building technologies that can contribute towards safer, effective and affordable drugs. Strong expertise in technology development coupled with an inner drive to remain at the cutting-edge has been the driving force in his illustrious career.

At VLife, Atul has been a significant contributor in the evolution of VLife's technology platform. Presently he is responsible for identifying and implementing advanced technologies which facilitate complex in-silico research efforts. Having worked in India, Japan, UK and the USA, Atul brings an international outlook to business.
